|-------------------------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| Total deliveries ^a | 8,978 | 9,015 | 8,867 | 8,579 | 8,787 | 8,300 | 8,432 | 8,382 | 8,058 | 8,185 |
| Gestational diabetes (%) | 4.4% | 5.1% | 5.4% | 5.9% | 6.5% | 7.3% | 7.6% | 8.3% | 8.9% | 9.9% |

^a Among women without pre-existing diabetes.

Note: Diabetes mellitus first detected in pregnancy as recorded in the medical record. Please note that the criteria for the diagnosis of gestational diabetes were revised by Diabetes Canada (formerly the Canadian Diabetes Association) in 2013. Therefore, the rates of gestational diabetes were expected to increase as the new criteria are adopted across Nova Scotia, starting approximately in late 2014.
